London, Feb. 12.—It is now reported here that, in addition to attempting to get Turkey's permission to run its Black sea fleet through the Dardanelles, Russia is also trying to get Great Britain's consent to the passage. At the foreign office an official statement was issued last night to the effect that Russia had not broached this subject to the British government. It added that if this should be attempted without asking permission the act would constitute a grave breach of the treaty of Berlin.

St. Petersburg, Feb. 12.—The czar to-day received a telegram from Viceroy Alexiff describing the damage done to the Russian warships during the bombardment by the Japanese fleet at Port Arthur. It says:

"The Czarevitch and Pallada were brought into the harbor Tuesday. The Revizan is making temporary repairs to a hole. Repairs to the battleships are so complicated that it is difficult to say when the ships will be ready. The Pallada and Novik will be docked in turn and I expect them to be ready in a fortnight. All the other vessels injured in the fight are now repairing and coaling in the harbor. I expect them to be ready in three days."

It is officially announced that no news has been received here of the fight at Chemulpo, the landing of Japanese or the blowing up of a bridge on the Manchurian railway.

EXCELLENT

Was the Production of "His Majesty and the Maid," at the Opera House Last Evening.

The production of "His Majesty and the Maid," at the Traders Grand Opera House Thursday evening was one of the star theatrical attractions that have been presented in Clarksburg this season and the company deserved a much larger audience than the one which witnessed it. Miss Mary Emerson, in the leading role charmed and captivated the audience. The stage settings were certainly elaborate. The attention paid to the little things throughout the setting made a harmonious and pleasing whole in all of the scenes and the beautiful costumes were in keeping. The play is novel, bright, well acted and finely staged and there is a plot that holds the attention of everyone with interest and pleasure.

Work of Rebuilding Has
Already Begun.

By Associated Press.
Washington, D. C., Feb. 12.—The Cabinet has decided not to send troops to Baltimore. Governor Warfield has sent word that troops are not needed.

Baltimore, Md., Feb. 12.—Today marked the most cheerful advance Baltimore has yet made in emerging from the dark cloud cast upon it by the great conflagration of last Sunday and Monday. An incident that inspired the whole community with tremendous confidence was the resumption of business by the banks deposits being received and checks honored in the usual way. It would be difficult to estimate the volume of transactions in this respect but according to the leading bankers it was gratifyingly large in view of existing conditions.

The knowledge that Baltimore's terminal facilities are intact and that the grain elevators were not involved in the fiery tornado has also served to promote a popular conviction that the situation is not so dark as it has heretofore appeared. Indeed the optimistic feeling is manifestly growing that the calamity, though harrowing in every detail, will give the city an opportunity to readjust itself on new and more modern plans and that a new city of imposing grandeur is to rise from the ruins of the old.

United States is Asked to Obtain Pledge, As China May Not be Able to Maintain Neutrality Throughout the War.

New York, Feb. 12.—The Herald publishes the following from its correspondent:

"Berlin, Thursday—I learn from a trustworthy source that China has asked the United States to obtain an international pledge as to the integrity of China."

According to information furnished at the Chinese legation here this is because China itself was unable to guarantee the permanence of her neutrality during the war. My authority at the legation says the position of the Chinese government is this:

China is prepared to maintain strict neutrality for the time being, but how long such an attitude is possible will depend on events. It must be remembered that not only is war being fought about Manchuria, Chinese territory, but fighting is certain on Chinese soil. If the Chinese population becomes excited an uprising may be unavoidable.

Further it may be neither possible nor desirable for China to remain passive. It has 30,000 well equipped troops at Pechili, close to the Manchurian frontier ready for any emergency.

Count Tombe, the Swedish minister here, had several conferences with Baron von Richthofen. I understand the Swedes fear Anglo-Saxon complications and foresee the possibility of England seizing the Baltic on the island on Goshland as a coaling base, which the Swedes would surrender after a show of resistance. Then Russia would declare Sweden had violated her neutrality. King Oscar may postpone his projected trip to Abbazia and a mobilization of the Swedish army is not impossible.
